Lune360

PAYROLL AT A GLANCE

Payroll built for teams with a payroll specialist.

Compliance still needs a specialist's eye, in any payroll tool. Lune 360 does the monthly calculation, and your payroll specialist or CA handles compliance, fast, in a tool you control.

BUILT FOR

- Companies with a payroll specialist, in-house or external, who handles compliance and filing
- HR teams that value simplicity, control and clean data over a heavy compliance engine
- Businesses that want to change a rule today and see it applied today

NOT FOR

- Companies looking for one tool that calculates and files PF, ESI and TDS returns by itself
- Companies that want payroll fully run inside the software with no payroll specialist
- Companies on a full-service bureau's own platform (use Lune 360 for HRIS and performance instead)

Capability	What Lune 360 does
Attendance to salary	Built in — LOP, overtime, comp-off, absconding hold and advances, all calculated
Variable pay, reimbursements, arrears	Built in — One CSV upload
PF, ESI, PT	Via payroll specialist — A simple Excel calculation on the monthly payable, uploaded once and carried forward until you change it
Income tax (TDS)	Via payroll specialist — Calculated on the monthly payable and uploaded
Tax declarations and proofs	Built in — Employee portal. HR approves or rejects amounts at proof stage. Your payroll specialist gets the approved data as a report or export
Rate and rule changes	Built in — You control the rates. Your payroll specialist changes the upload and it applies the same day
Payroll specialist access	Built in — Role-based access in the system. No monthly email exchange or rework
Review before approval	Built in — Variance vs last month and exception flags
Payslips, register, full and final	Built in — Payslips, year-to-date salary register and full and final settlement
Bank payment	Via export — Net pay exported from the salary register for bank upload
Statutory filing: PF, ESI, TDS returns, Form 16	Via payroll specialist — Your payroll specialist files, using Lune 360's data
Data and reports	Built in — Full data in Excel or CSV, ready for any system or analytics tool

HRIS ₹50 + Payroll ₹35 = ₹85 per employee / month

Every payroll feature above included. Flat ₹2,999 a month up to 30 employees. Excludes GST.

Simplicity is the strength

A lean structure keeps it flexible and cost-effective

Changes stick

A rule you set carries forward until you change it

You control the rates

Changes apply the day you make them

Your data stays usable

Excel and CSV work with any system or analytics tool
